

Bike Wash Station

Overview:

Prevent mud, grease and grime from wearing out your bike's components with this public-use Bike Wash Station. Perfect for mountain bike trailheads, bike parks, and apartment complexes, this station offers cyclists a convenient and durable cleaning solution that easily connects to any water source.

Benefits:

- Hang your bike by the seat or top tube for stable cleaning
- Includes four brushes for various components, securely attached to prevent theft
- Coiled hose with adjustable nozzle delivers powerful cleaning
- Water connection can be plumbed from underneath or via side access port
